

# Булгаков Алексей БАСО-02-20

## Задание 1 (геоданные):

Вначале я сделал фотку со своего телефона, геоданные на ней отсутствовали, даже при включённой галочке в настройках телефона. Зато присутствовали данные насчёт самой съёмки.

### Камера

Камера, изготовитель	Xiaomi
Камера, модель	Redmi Note 8 Pro
Диафрагма	f/1.9
Выдержка	1/33 с.
Скорость ISO	ISO-333
Экспокоррекция	
Фокусное расстояние	5 мм
Светосила	
Экспозамер	
Расстояние до объекта	
Вспышка, режим	Без вспышки
Вспышка, энергия	
Фокусное расстояние, э...	

Затем я попросил друга прислать мне документом фотку со своего телефона, со включенными геоданными и у него соответственно они были.

### Камера

Камера, изготовитель	HUAWEI
Камера, модель	JSN-L21
Диафрагма	f/1.8
Выдержка	1/12 с.
Скорость ISO	ISO-2500
Экспокоррекция	0 шаг.
Фокусное расстояние	4 мм
Светосила	1.69
Экспозамер	По шаблону
Расстояние до объекта	
Вспышка, режим	Без вспышки, авто
Вспышка, энергия	
Фокусное расстояние, э...	27

### Улучшенное фото

Объектив, изготовитель	
Объектив, модель	
Вспышка, изготовитель	
Вспышка, модель	
Серийный номер камеры	
Контраст	Обычный
Яркость	0
Источник света	Дневное освещение
Программа экспозиции	Обычный
Насыщенность	Обычный
Резкость	Обычная
Баланс белого	Авто
Фотометрическая интер...	
Цифровое увеличение	1
Версия EXIF	0210

### GPS

Широта	55; 42; 56.362609000...
Долгота	37; 45; 14.254760000...
Высота	0

Затем он прислал ещё одну фотку, где смог вписать сообщение

### Описание

Задание 2 (FOCA):

Просканировал сайт MIT.

The screenshot shows the FOCA Open Source 3.4.7.0 application window. The left sidebar displays a tree view of the project structure under 'Project of mit.edu'. The main area features a logo for 'Foca OPEN SOURCE' and a search bar labeled 'Custom search'. Below the search bar is a table listing search results. The columns are: Id, Type, URL, Download, Download Date, Size, and Meta. The table contains 10 entries, all of which are PPT files. The last entry, Id 70, has a red 'X' in the 'Download' column, indicating it failed to download. At the bottom of the interface, there is a log table with columns: Time, Source, Severity, and Message. A status bar at the bottom indicates 'Starting search with DuckDuckGoWeb engine'.

# Документами, которые FOSA нашла, были опросы, правила, учебные планы и т.д.

The General Evaluator gives feedback to the meeting participants who have not already been evaluated. Here is the opportunity for the Toastmaster, Table Topics Master, Table Topics participants, and the Evaluators to receive feedback on how well they did and to be encouraged on how to improve. The Timer, Ah Counter, and Grammarian are also there for club members see how well they are doing in achieving their goals; call on them for their reports.

A. Presiding Officer

- Did the meeting start on time?
- Were the guests welcomed?

B. Toastmaster

- Were the meeting roles explained?
- Were guests given opportunity to introduce themselves?
- Did the introductions include:
  - \* a brief biographical sketch?
  - \* the objectives of the speech?
  - \* the speech title?
- Were the transitions between speeches smooth?
- Did the segue between speeches show that the Toastmaster was listening?
- Will the meeting end on time?

C. Table Topics Master

- Were the topics appropriate?
- Were the topics introduced in 1 minute or less?
- Were any special techniques (e.g., props, gestures) employed?
- Were members called on in the appropriate order (those with no role, then speaker, then audience)?
- Were guests invited to participate?

D. Table Topics Participants

- How did each speaker improve?
- Were any special techniques (entrance, artful dodge) used?
- What, in terms of the mechanics of impromptu speaking, can be improved?

E. Evaluators

- Was the book report summary good?
- Was the sandwich technique employed:
  - \* Did it begin on a positive note?
  - \* Was at least one suggestion for improvement made?
  - \* Were more than 3 suggestions made?
  - \* Was encouragement added at the close?

Just like a speech evaluation, the general evaluation should neither be a whitewash nor a scathing criticism, but should point out where the club could use some improvement and what we are doing well

Adapted from Boston Speech Party checklist

## INTRAMURAL VOLLEYBALL RULES

**General Regulations:**

- The teams must be ready to start (with six players) at the scheduled game time; failure to do so will result in a forfeit.
- Only players listed on team roster will be eligible to play with that team.
- The participation of an ineligible player will result in his/her team losing by default and incurring a fine.
- A game is won when either team has a two-point lead with fifteen or more points. The winner of two out of three games determines who wins the match. If there is not enough time to play a full third game, the referee may call an eleven-point game (or rally scoring).
- Service of the first game will be determined by a coin toss. The team that did not begin serving the first game shall begin serving the second game. If the match goes to three games, service for the third game will be decided by a coin toss.
- Each team may call one one-minute timeout per game.
- In B, C+, and C leagues, players may either substitute directly or rotate in extra players. In A and B+ leagues, players may only substitute directly.

**Referee Duties:**

- Check the height of the net (7'10").
- Make sure that there are no obstructions on or around the court (including spectators).
- Meet with your second referee and go over his/her responsibilities:
  - ♦ Watch the net for violations
  - ♦ Watch for feet entirely over the centerline (i.e. no part of the foot on or above the line).
  - ♦ The second referee should blow their whistle only to call the above violations or to stop play if a ball from another court interferes with play. If the second referee sees a violation during the play, he/she should indicate this to the first referee without blowing the whistle. The second referee should mimic the calls made by the first referee when a violation is called.
  - ♦ Call the two captains together and flip a coin to determine which team will serve first and which side each team will be on.
  - ♦ Explain the ground rules to the captains before the match:
    - A player may not go into an adjacent court to play the ball if a match is being played on that court.

## Задание 3 (CCleaner):

До этого я уже пользовался CCleaner для очистки всякого мусора и удаления программ.

## Задание 4 (R-Studio):

### Создал текстовый файл

С помощью глобального поиска попытался найти файл, и найти его даже получилось

A screenshot of the R-Studio Demo 8.14.179623 application. The title bar reads "R-Studio Demo 8.14.179623 - Панель файлов". The menu bar includes Диск, Файл, Инструменты, Просмотр, Помощь. The toolbar includes icons for Refresh, Stop, Recover, and Find/Replace. The main interface shows a file tree on the left and a list of files on the right. The file tree shows a drive D: with a Root folder containing several subfolders and files, including "\$RECYCLE.BIN" and "bulga". The list view on the right shows a table of files with columns: Имя (Name), Размер, Байт (Size, Bytes), Создан (Created), and Изменен (Modified). One file, "\$IE2206F.TXT", is highlighted in blue. The bottom pane shows a log titled "Журнал" with entries for System events. The status bar at the bottom shows "Готово", "Отмечено: 0 файлов и 0 каталогов. Общий размер: 0 Bytes", and "Всего 38.00 GB из 77469 файлов в 9015 папках".

Но у него что-то произошло с кодировкой :О

Поэтому я создал ещё один текстовый файл, и нашёл его, зайдя в папку где он был удалён.

Журнал

Тип	Дата	Время	Текст
Система	07.10.2020	21:23:41	Перечисление файлов было завершено за 3 сек
Система	07.10.2020	21:23:49	Перечисление файлов было завершено за 2 сек

Готово | Отмечено: 60 файлов и 6 каталогов. Общий размер: 6.98 GB | Всего 38.00 GB из 77469 файлов в 9015 папках

The screenshot shows the R-Studio demo interface. On the left, a tree view of the disk structure for drive D: is displayed, showing a folder named 'Downloads' which is selected. On the right, a list of files found on the disk is shown, including various executables, images, and documents. Below the main pane, a 'Journal' section tracks system events during the recovery process. At the bottom, a summary message indicates that 60 files and 6 folders were recovered, totaling 6.98 GB from 38.00 GB of data across 9015 folders. A small table at the bottom left provides details for two specific recovered files: a TXT file and a larger file named '2\_super\_text.TXT'.

Имя	Дата изменения	Тип	Размер
\$IE2206F.TXT	07.10.2020 21:19	Файл "TXT"	26 КБ
2_super_text.TXT	07.10.2020 21:23	Файл "TXT"	1 КБ

Он восстановился нормально.
